# What students have said about us in helping with the recruitment process

“..After participating in the Deloitte Technology Consulting Virtual Internship on Forage, I was contacted by a member of the Talent Team at Deloitte and referred to apply for a role.  
The Deloitte Virtual Internship was my pathway from my PhD to a career at Deloitte...”

- *Yicheng Zhu, Deloitte Technology, Strategy and Transformation*

“I was exposed to the tools of the trade — software that I hadn’t previously come across during my university course besides the fact that it helped me develop my skills, it also allowed me to demonstrate my abilities (to recruiters)”

- *Chloe Gilden, Graduate at KPMG*

“It was something I could refer to throughout my entire application. I had the firm’s name already on my CV and I believe it made my answer to, ‘why the firm?’ far more convincing”

- *Charlotte Kail, Trainee Solicitor at White & Case*

Hey Jenny!

Jane here from Merge&Co APAC. Had a look at your work for the Digital Consulting Program and was very impressed by your work.

We're looking for a part time intern in our Digital Team right now - was wondering if this was something of interest

Hi Jenny,

Thank you for the feedback on my work. This is definitely something of interest. I had a look on your recruitment site however, and was unable to find any information.

Would you be able to direct me to the right place?

I was also wondering if there were any upcoming opportunities with the firm to speak to current employees about the role to get a better gauge of what it would consist of?
